

Living Legacy Project
Mississippi Living Legacy Pilgrimage
October 28 – 31, 2018

Join us as we explore the concept of a United States that acknowledges and works to heal the wounds of racism rooted in our history of slavery. Together, we will visit landmarks in the history of civil rights in Mississippi.

Along the way, we'll learn about and meet some of the people who changed history through their courage. Learn the true legacy of racial justice warriors of all colors who fought for freedom and justice for all Americans. Sponsored by the Living Legacy Project, this spiritual journey invites you to become a pilgrim as we engage in deep conversation about the civil rights movement and the power of the Racial Justice Movement in today's racially unhealed world.
